1) Introduction the Topic

The teacher shows pictures of children in different situation.

„What is wrong in this picture?“

„What are the children doing?“

„Would you do the same?“

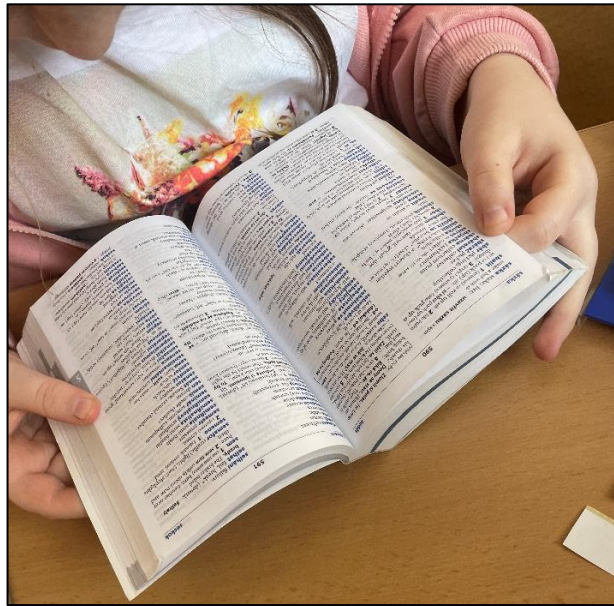

“Is your best friend smart?”

“What do you like about your best friend?”

2) Czech-English Dictionary Activity

Students work in pairs to find the English translations of good behavior words in a Czech-English dictionary. Each student writes the translated words on their own piece of paper.

3) Creating the Friendship Tree

Students make hand outline, which they first draw around their palm, then cut out. Then decorate their paper hands with one favorite friendship quality and the rest write into their notebook. The teacher prepares a large tree on a poster. One by one, students stick their hands to the tree to create a crown of leaves, making a friendship tree.

4) End of the lesson

Some students can present their best friend to the class using the learned words or discuss what makes friendship strong.
